Education

B.Tech - Information Technology

Kakatiya University, Warangal

Graduated: 2025

CGPA: 8.2 / 10

Skills

Programming & Querying: SQL, Python (Pandas, NumPy)

Data Visualization Tools: Advanced MS Excel, Power BI (DAX)

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), KPI Reporting, Descriptive Statistics

Soft Skills: Analytical Thinking, Problem Solving, Good Communication, Team Collaboration, Detail - Oriented

Experience

Data Analyst Intern

Besant Technologies (Remote)

July 2025 – Aug 2025

Tools Used: Excel, Pandas, SQL, Power BI

- Performed data cleaning and analysis using Pandas and Excel to improve data quality.
- Extracted and analyzed data using SQL for reporting and insights
- Created **DAX Formulas** and Developed an **interactive Power BI dashboard** showcasing churn rate, revenue, customer distribution, and key KPIs for business insights.
- Enhanced business insights delivery through **clear visual storytelling and data-driven recommendations**.

Data Analyst Intern

iStudio (Remote)

April 2025 – June 2025

Tools Used: Excel, SQL, Python, Power BI

- Processed and cleaned **1,00,000** rows using Python (Pandas) to ensure data accuracy and consistency.
- Utilized Microsoft Excel (**Pivot Tables, VLOOKUP, Power Query**) to perform data validation, trend analysis, and reporting.
- Learned to Write optimized **SQL** queries to extract, filter, and join data from relational databases for business insights.
- Designed interactive dashboards and reports in **Power BI** to visualize key performance indicators and support decision-making.

Projects

Sales Data Analysis | SQL, Power BI

Sep 2025 – Oct 2025

- Developed and expanded an interactive Power BI dashboard to investigate sales performance across products, regions, channels, and time periods..
- Built 8 dynamic measures and KPIs in Power BI to track **regional sales, revenue trends, and product performance**.
- Created multipage dashboards with slicers and filters, helping stakeholders drill down by region, Sales Channel, and Month.
- Detected a **14%** sales drop post-festival in the **South region**. Later, the insights were used for a marketing recovery plan.

Mobiles Sales Data Analysis | SQL, Power BI

May 2025 – June 2025

- Built an interactive **Power BI Sales Dashboard** to track KPIs including total sales, quantity, transactions, and customer ratings.
- Used **SQL** for data extraction, cleaning, and aggregation to prepare structured datasets for analysis.
